

North Carolina State Fact Sheet

As the data below show, Hispanics⁺ are quickly becoming a population with a national presence. The most dramatic Latino population growth has occurred in "nontraditional" states, and Hispanics are now the largest minority in the country. Given that almost half of Hispanics are under 25 years old, they will constitute a large segment of the future U.S. population, workforce, and electorate.

North Carolina Compared to the Nation

- ✓ North Carolina is the state with the 15th-largest Latino population.¹
- Between 1990 and 2000, the growth rate of the Latino population in North Carolina ranked first in the country.¹
- ✓ Of all states, North Carolina has the 26th-largest share of Latinos when compared to the total state population.¹
