

As the data below show, Hispanics* are quickly becoming a population with a national presence. The most dramatic Latino population growth has occurred in "nontraditional" states, and Hispanics are now the largest minority in the country. Given that almost half of Hispanics are under 25 years old, they will constitute a large segment of the future U.S. population, workforce, and electorate.

Michigan Compared to the Nation

- ▼ Michigan is the state with the 17th-largest Latino population.¹
- ▼ Between 1990 and 2000, the growth rate of the Latino population in Michigan ranked 33rd in the country.¹
- ▼ Of all states, Michigan has the 32nd-largest share of Latinos when compared to the total state population.¹
