

# Fast Facts: Latinos and Health Care

For more information, please contact:

Kara D. Ryan, Health Policy Research Analyst
Office of Research, Advocacy, and Legislation
National Council of La Raza

One in three (32%)
uninsured people in the
U.S. is Hispanic.

### U.S. Uninsured Population by Race/Ethnicity, 2007

Source: NCLR calculation using data for the U.S. Bureau of the Census, "2008 Annual Social and Economic Supplement," Current Population Survey. Conducted by the Bureau of the Census for the Bureau of Labor Statistics. Washington, DC, 2008, http://www.census.gov/hhes/www/cpstc/cps\_table\_creator.html.

Hispanics are much more likely to be uninsured than non-Hispanics.

### People Without Health Coverage by Race/Ethnicity, 2007

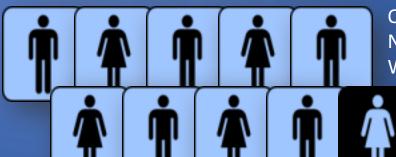

One in three Hispanics (32.1%)

One in five Non-Hispanic Blacks (19.3%)

One in six Asians (16.7%)

One in ten Non-Hispanic Whites (10.4%)

The vast majority of uninsured Latinos (82%) live in families.

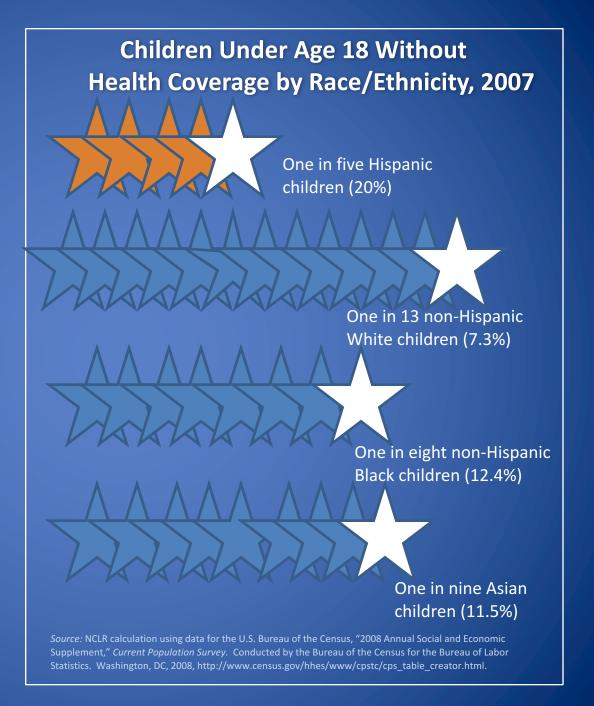

#### **Uninsured Latinos by Family Type, 2007**

Conducted by the Bureau of the Census for the Bureau of Labor Statistics. Washington, DC, 2008, http://www.census.gov/hhes/www/cpstc/cps\_table\_creator.html.

Citizen children in mixedstatus families—where at least one parent is an immigrant—are vulnerable to uninsurance.

Hispanics make up nearly one-sixth (16%) of people under age 65 but less than one-tenth (9%) of the nation's total health care costs.

## Total U.S. Health Care Expenditures for Nonelderly by Race/Ethnicity, 2006

Source: Agency for Healthcare Research and Quality, Medical Expenditure Panel Survey, "Table 1: Total Health Services—Median and Mean Expenses per Person with Expense and Distribution of Expenses by Source of Payment: United States, 2006."

Compared to insured
Latinos, low-income,
uninsured Latinos incur
fewer health care
expenses but pay more
total dollars out of pocket.

#### Out-of-Pocket Health Care Costs for Low-Income, Nonelderly Latinos by Insurance Status, 2006

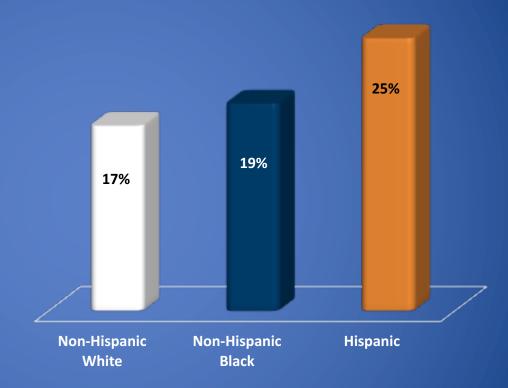

Insurance Status	Total Expenses (in millions)	Percentage Paid Out of Pocket	Total Paid Out of Pocket (in millions)
Private Health Coverage	\$4,544	16.2%	\$736
Public Health Coverage	\$4,443	9.8%	\$435
Uninsured	\$1,432	59.7%	\$855

Source: Agency for Healthcare Research and Quality, Medical Expenditure Panel Survey, "Table 1: Total Health Services—Median and Mean Expenses per Person with Expense and Distribution of Expenses by Source of Payment: United States, 2006."

One in four (25%)
Hispanics reports
withdrawing money from
savings to pay for health
care costs.

### People Who Report Taking Money Out of Personal or Retirement Savings in the Previous Year to Pay for Health Care by Race/Ethnicity, 2007

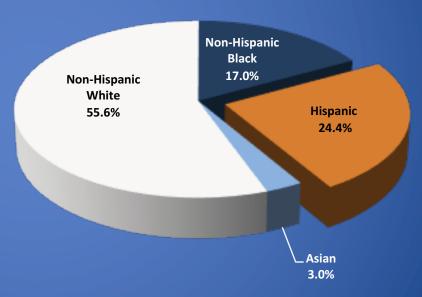

Source: The Rockefeller Foundation, American Worker Survey: Complete Results (New York: The Rockefeller Foundation, 2008), <a href="http://www.rockfound.org/initiatives/amer-workers/american-worker-survey.pdf">http://www.rockfound.org/initiatives/amer-worker-survey.pdf</a>.

Despite a higher uninsurance rate and lower income level than Whites, Hispanics do not make up the majority of people receiving uncompensated care.

## Distribution of People Receiving Uncompensated Care\* by Race/Ethnicity, 2004

\* Uncompensated care is health care that is delivered but not paid for by the patient or third party (such as an insurer).
