

Over the past decade, Latinos have sealed their place as the country's largest minority group. With the expanded national presence of this vibrant and youthful population, Hispanics increasingly contribute to the economic, social and political life of the country.

State Compared to the Nation

- Maryland has the 17th largest Latino population.
- Between 2000 and 2014, Latino population growth ranked #6 in the country.
- Maryland has the 22nd largest share of Latinos when compared to the total state population.

	Population (2014) ¹		Hispanic Population Share ¹	Percent Change (2000–2014) ²		Median Age (2014) ¹

Electorate Growth	2008-2012
White	1.97%
Black	2.29%
Latino	23.66%

Economic Wellbeing

Although Latinos have the highest labor participation rate of any demographic group, they are overrepresented in several high-growth occupations that tend to pay below-median wages. As a result, Latinos are vulnerable to economic downturns and experience high poverty rates, especially among working families with children.

Year: 2014 ¹	Total	Hispanic
Median Household Income	\$89,678	\$61,214

Year: 2015 ³	Total	Hispanic	Hispanic % of Total

Education

Latinos are the fastest-growing student population in all regions of the country. They form a significant proportion of school enrollments from early childhood to higher education, and continue to narrow the educational attainment gap between them and their White peers.

Under 18 Population Breakdown ²	Total (2014)	Growth Rate (2000–2014)	Hispanic % of Total

Latino	36.68%	22.47%	19.01%	21.84%

Health Insurance

Due to various factors, a significant portion of the Latino population remains uninsured. Despite high workforce participation rates, Latinos are less likely to be offered coverage through their employer. However, with the recent implementation of the Affordable Care Act, Latinos are projected to see significant coverage gains both in public and private insurance when the law is fully implemented.

Year: 2014 ⁴	% with Employer-Sponsored Coverage	% with Medicaid Coverage	Uninsured Rate (All Ages)	Uninsured Rate (0-17)	Hispanic % of Uninsured
Total Population	66.12%	14.56%	7.87%	3.16%	31.65%
Latino	46.94%	26.59%	26.57%	8.40%	--

Homeownership

Hispanics and other minorities will fuel the long-term growth in the housing market over the next 20 years, which will in turn fuel overall economic growth. However, Latinos and other minorities currently have little access to affordable mortgage credit which, if not corrected, could dampen the impact on the overall economy.

Year: 2014 ¹	Number of Homeowners	Homeownership Rate	Hispanic % of Total Homeowners
Total Population	1,426,748	65.89%	4.58%
Latino	65,316	48.97%	--
