

## U.S. Employers Add 266,000 Jobs in November

Latino Unemployment Rate increased slightly to 4.2%.

## HEALTH CARE EMPLOYMENT LEADS JOB GROWTH, ADDING 45,000 JOBS

In November, the health care sector added 45,000 jobs, including 34,000 jobs in ambulatory health care services and 10,000 jobs in hospitals. Latinos, however, are underrepresented in the health care sector, making up only 8.5% of workers.

INDICATORS	National	Latinos
<ul><li>Employed</li><li>Working people over the age of 16, including those temporarily absent</li></ul>	158.6 million	28.4 million
from their jobs Unemployed		
<ul> <li>Those who are available to work, trying to find a job, or expect to be called back from a layoff but are not working</li> </ul>	5.8 million	1.2 million
<ul><li>Civilian Labor Force</li><li>The sum of employed and unemployed people</li></ul>	164.4 million	29.6 million
Not in the Labor Force		
<ul> <li>People over the age of 16 classified as neither employed nor unemployed</li> </ul>	95.6 million	14.3 million
Unemployment Rate	3.5%	4.2%
<ul> <li>Share of the labor force that is unemployed</li> </ul>	5.570	4.270
Labor Force Participation Rate	63.2%	67.4%
• Share of the population over the age of 16 that is in the labor force		
<ul> <li>Employment-Population Ratio</li> <li>Share of the population over the age of 16 that is working</li> </ul>	61%	64.6%

## **Employment of Latinos in November 2019**

The U.S. Department of Labor (DOL) reported that employers added 266,000 jobs in November—a significant increase from the 128,000 jobs added in October. However, many of these gains are attributable to manufacturing workers returning from a General Motors strike. The national unemployment rate decreased slightly from 3.6% to 3.5%. While the number of employed persons increased by 83,000 to 158.6 million.

The Latino unemployment rate increased 0.1% from October to November. At 4.2%, the Latino unemployment rate is significantly higher than the national rate of 3.5%—a difference of 0.7%. In November, Latinos saw a slight increase in those employed (+68,000), but also an increase in the number of unemployed (+33,000).

Despite high labor force participation, many Latino families continue to struggle to cover basic necessities. One contributing factor is insufficient wage growth, an important indicator of job quality and a key factor in economic security. Over the past year, average hourly earnings only rose by 2.7%, compared to the 3.5% to 4% economists recommend for a healthy economy.

The following takes a closer look at Latino employment by gender and age:

- Men (ages 20 years and older): The Latino male unemployment rate decreased from 3.4% in October to 3.0% in November. The number of employed Hispanic men increased by approximately 197,000 between October and November.
- Women (ages 20 years and older): The unemployment rate for Latinas increased from 3.9% in October to 4.3% in November. The number of employed Hispanic women decreased by 168,000 last month.
- Young Hispanic workers (ages 16–19 years old): The unemployment rate for Latino youth increased between October and November from 14.3% to 16.5%.

## About Us

UnidosUS, previously known as NCLR (National Council of La Raza), is the nation's largest Hispanic civil rights and advocacy organization. Through its unique combination of expert research, advocacy, programs, and an <u>Affiliate Network</u> of nearly 300 community-based organizations across the United States and Puerto Rico, UnidosUS simultaneously challenges the social, economic, and political barriers that affect Latinos at the national and local levels.

For more than 50 years, UnidosUS has united communities and different groups seeking common ground through collaboration, and that share a desire to make our country stronger. For more information on UnidosUS, visit <u>www.unidosus.org</u> or follow us on <u>Facebook</u>, <u>Instagram</u>, and <u>Twitter</u>.
