Key Findings Florida

- 1. On top priorities, the message from Hispanic voters is clear: it's the ECONOMY.** Pocketbook concerns constitute the top-four the issues Latino voters want elected officials to address: the cost of food and basic living expenses, wages, and housing and health care costs. Immigration rounds out the top-five.
 - 38% expect the President's policies will make them worse off in next year.
- 2. An overwhelming 72% of Hispanic voters in Florida are concerned that Congress is not exercising its checks-and-balances role** and giving up too much authority to the President/Executive Branch.
- 3. Statewide, 51% of Hispanic voters disapprove of the president's performance.** Top issues affecting voters' views of the President are: cost of living, immigration arrests/deportations, jobs/the economy, and the Iran war.
- 4. Over half of Florida Hispanic voters (54%) think the country is headed in the wrong direction.** This is notable for what has been a persistently optimistic population.
- 5. Regardless of what it's called, an overwhelming number of Hispanic voters, including majority of Republicans, support legalization for long residing undocumented immigrants.** This holds even if the program is called "amnesty."

Key Findings Florida

6. 2026 House Vote: If the 2026 election was today, 42% of Florida Hispanic voters would support Republicans, 38% would support Democrats, and 20% are undecided. But both parties underperform 2024 support levels, which is likely a sign of voter discontent.

- Meaningful outreach is key, particularly since 35% of Florida's Latino voters are newer to the electorate: 16% voted for the first time in 2024, and 19% were first time voters in 2020 or 2022.

7. Civil Rights: 45% of Hispanic voters in Florida are not confident the government will respect their rights. 45% of Hispanics think their civil rights and liberties have gotten less secure under the current administration, compared with 28% who say more secure.

8. Military actions: Nearly 7 in 10 believe the President should be required to get approval from Congress before taking military action against another country (68%)

- Half of Hispanic voters in Florida (50%) oppose the war in Iran, but 44% support potential military action against Cuba.

9. 2024 Re-think: Trump continues to lose ground with his Latino supporters, as 20% of all Hispanics in Florida who voted for him in 2024 would not repeat that vote. This compares to 5% of Harris voters who would not vote for her again.
